

RULES

Majority Rules

A free printable party game

Match the room. Score a point. Defend your answer afterwards.

PLAYERS

4-12

TIME

20-35 minutes

YOU NEED

The 24 cards, this score sheet, scrap paper and a pen each

How to play

- 1 Read a question**
One player reads a question aloud.
- 2 Write your answer**
Everyone secretly writes the short answer they think most of the room will choose.
- 3 Reveal together**
Show every answer at the same time. Everyone in the biggest matching group scores 1 point.

WINNING

First to 8 points wins.

If tied players reach 8 on the same round, keep playing until one of those tied players scores and the others don't.

No right answers

You are predicting the room, not answering the question. The clever answer nobody else wrote scores nothing.

Ties both score

If two answers tie for the biggest group, everyone in both groups scores 1 point.

Close enough counts

Answers match when the table agrees they mean the same thing.

Scoring example

PRIYA

Pavlova**+1**

TOM

Pavlova**+1**

SAM

Pavlova**+1**

AVA

Halloumi**0**

Pavlova is the biggest matching group, so Priya, Tom and Sam score 1 point each.

Before you start: cut out the 24 question cards on pages 2 and 3, shuffle them and stack them face down. Print the score sheet on page 4. Pass the reader role around the table each round.
